

RESTORINGVISION.ORG

About Us:

RestoringVision.org is a non-profit working to change lives by increasing access to new reading glasses and sunglasses.

- Distributed 2 million readers and sunglasses
- To 75 countries
- With over 800 organizations
- Over the past 10 years

We provide new, high quality, affordable readers and sunglasses for medical, vision, faith-based and general philanthropic groups delivering "the gift of sight" to those people who would otherwise lack access or resources.

Sight can make the difference between a life of poverty and a life of opportunity.

A huge problem with a simple solution...

- 544 million people worldwide are visually impaired just because they can't focus close-up. So, they are unable to maintain a job or remain a productive member of the community. Reading glasses immediately solve this problem.
- More have developed cataracts or pterygia because they never owned sunglasses to shield their eyes from UV light, dust and smoke.
- \$202 billion is lost in the global economy due to poor vision.

You can help...easily.

Adding RestoringVision's eye care component to your existing mission project is **easy**. We provide well- balanced inventory of **new readers** and simple "how-to" instructions so that a few **untrained volunteers** can distribute glasses to 300-400 people in one day. By simply bringing along an 18 lb. package of 300 reading glasses in your luggage, you can have a **dramatic and immediate** impact on peoples' lives.

"Since we added reading glasses to our clinics, it is usually one of the busiest stations we have, and they walk away soooo happy! Such a huge way to impact someone's life for 50 cents."

Cheryl Crocker Mission To The World
